\* **SANEF section 29.7: The Competition** The Championship will be run over two rounds of the same course. Both rounds shall be judged under Table A not on time. The actual penalties incurred by the competitor that was eliminated or retired do not count. They are replaced by adding 20 penalties to those of the competitor, which had the worst round, unless that competitor himself had incurred more penalties up to the time of his elimination or retirement, in spite of having been eliminated or retired. In this case the twenty penalties are added to that competitor's own penalties incurred up to his elimination or retirement. Should the elimination or retirement occur during the first round of the competition, the whole team, including the eliminated or retired competitor may start in the second round.

The winning team will be the team with the lowest aggregate number of penalties when adding the best three scores from the first round to those of the second round. In the event of equality of penalties there will be one jump-off against the clock. In the adult Championship the Chef d'Equipe will nominate one rider from his team to compete in the jump-off and in the Junior and Pony Rider Championships, the Chef d'Equipe will nominate two riders to compete in the jump-off. The fastest lowest aggregate score will determine the winner.

Speed: The speed for the Championship will be 350mpm.

Falls: Following a fall in any round, a competitor will not be allowed to compete in subsequent rounds unless, after an examination, the medical officials on duty are of the opinion that the competitor is fit enough to compete without incurring further injury."
